

## The museum FLUXUS+ for groups and tour operators

For bus groups and associations, the museum FLUXUS+ offers with its focus on modern art a delightful contrast to historic castles and gardens of Potsdam.

A one-hour guided tour gives a lot of interesting background information on the Fluxus art movement, the life work of Wolf Vostell and to the work of contemporary artists. In addition, video documentaries of performances give an insight into the Fluxus performing art. Afterwards our café offers little refreshments.
